

**Call for Ph-D funding opportunity in Navarre -Spain- cofunded by the European Union as part of the H2020 Marie Skłodowska-Curie Action COFUND in order to develop a PhD in the area of SUSTAINABLE TRANSPORTATION ANALYTICS**

Call for anybody interested in developing a Ph-D in **Sustainable Transportation Analytics at the Public University of Navarre (Pamplona, SPAIN)**:

If you go to the following webpage:

<https://wit.navarra.es/en/wit>

Under the Research lines / Research groups headline look at line **1. Automotive, mechatronics and advanced manufacture**, where in 1.D you could choose the line: **Eco-efficient Mobility Management in Sustainable Urban Transport**.

This is a great opportunity of getting a good funding for developing a PhD in Operations Research focused on Sustainable Transportation Analytics in Spain!

### **Employment Conditions**

The working conditions for the successful candidates will be the next ones:

1. Full time contract (up to 36 months, co-funded by MSCA COFUND grant) in the university where the doctoral programme will be done.
2. Gross salary (living allowance) of €32,400 (US\$34,150) per annum. The salary will be paid by the employer (recruiting universities UPNA, UNAV) and will include (Spanish law) all corresponding benefits such as national social security & health insurance, pension deductions, employee tax and maternity/paternity leave, etc.)
3. Relocation expenses (mobility allowance) up to €2,400 (US\$2,530). Each **Early-Stage Researcher (ESR)** will receive a single payment at the beginning of the fellowship to cover relocation costs according to the average distance between the hosting institution and the ESR's location.
4. Family allowance of €3,600 (US\$3,795) per annum for ESRs with family and/or dependent. Researchers with children and/or elderly dependent requirements will be offered a flexible organisation of work by individually-tailored solutions, such as teleworking or flexible working hours. In addition, maternity and paternity leaves will be paid in accordance with the Spanish national law, and additionally, in case of maternity or paternity leaves during the fellowship, a corresponding extension of the duration of the fellowship will be granted to enable them finishing their research.
5. Personal research budget up to €4,800 (US\$5,060) per annum for each ESR to cover comestible, conference attendance, publication costs, workshops, etc.
6. Travel allowance up to €2,400 (US\$2,530) per annum for each ESR to cover travel and subsistence during secondments or short stays at partner facilities.
